Subject: Job Offer: ML Engineer Position at KCDH

Dear Avdhoot Ashish Lendhe,

I am delighted to extend an offer for the position of ML Engineer at Koita Centre for Digital Health (KCDH) for the Oral Cancer Prediction Project.

In this role, you will be working closely with our partner, Oraicle Biosciences Company, and be responsible for planning, executing, and completing their prototype for oral cancer screening. Your expertise and skills will be a significant asset to our team and the project.

As per our discussion, your start date will be on 21st August 2023.

We believe that you will bring valuable contributions to our team and we look forward to the positive impact we know you will make.

Welcome aboard, Avdhoot.

Best Regards,

Dr. Kshitij Jadhav
